IDEAL BROILING.

Broiling can be done in the oven of the Charter Oak Range or Stove with the Wire Gauge Oven Door, more perfectly than over the live coals.

Lay the steak, chops, ham or fish on a wire broiler or meat rack, placing it in an ordinary bake pan to catch the drippings.

Allow it to remain in the oven with the door closed 15 or 20 minutes. No turning is required. At the end of this time it will be found nicely cooked ready to serve.

THIS IS THE IDEAL WAY TO BROIL MEATS.

There is no taint of coal-gas or smoke, and the meats are more tender and better in flavor than those broiled over the coals.

The convenience or broiling in the oven will be appreciated by every house-keeper, and adds another to the many reasons why the Charter Oak Range or Stove with the Wire Gauge Oven Door should be preferred to all others now in the market.

THE PUBLIC SCHOOLS.

THE FIRST DAY'S NUMBER OF APPLICANTS
EXCEEDED THEIR CAPACITY.

A Row in the Management—Personal Motives of Two Directors Said to be Handicapping the Usefulness of the Department—A School Without a Head.

All the public schools with the exception of the Stoddard, which is undergoing repairs, opened this morning for the reception of pupils. The Bates, which was damaged by fire during last winter, has been fixed up, and this morning extended its protection to the clientele of little ones in its district. The principals of the various schools and their assistants were busy examining applicants for admission and enrolling classes. At the office of the Superintendent, Mr. Long and his corps of clerks were occupied signing certificates of transfer of pupils and assigning strangers to their proper schools.

Some of the enthusiastic directors of the kindergartens were active in their efforts to secure official attention for the demands of their various departments.

The number of children that were enrolled could not be told until after the count at the close of the school hour, but it was manifest that the capacity of the buildings would be fully taken and that from 1,500 to 2,000 children would be unable to secure admission because of the lack of room.

A LITTLE UNPLEASANTNESS is brewing in the school board, which is said to have grown out of the personal prejudices of some of the members, and which threatens not only to increase in importance but to impair the usefulness of some of the institutions. A prominent fact at present is that the Jefferson, one of the most important schools, is without a principal today and is of course necessarily retarded in its work.

As near as can be learned from the surface indications of the trouble, the underlying facts are these: Mr. John Brady, a member of the School Board for the Fourth Ward, became dissatisfied last season with Miss Margaret McClure, a canvasser of the Jefferson School. Her offense is said to have been the enforcement of a board rule regarding the leasing of books to indigent pupils. Mr. Brady asked for the lady's removal from his district, and she was accordingly transferred to the Everett School and Mr. Evans of that institution in her place at the Jefferson. Mr. Evans objected to the proceedings, and brought certain influence to bear which resulted in a reconsideration of that move. Mr. Brady was persistent in his demand, however, and at the meeting of the Teachers' Committee held Saturday night urged his views so strongly that in a last desperate attempt to displace Miss McClure a canvasser of the entire role of the discipline of one of his constituents, Principal Gillilan of the Lincoln growing out of the discipline of one of his constituents, Mr. Gillilan was selected as the party to be deposed and the new room master. Miss McClure was therefore ordered to the Jefferson School.

Mr. Gillilan, who has been a teacher in the public schools for forty consecutive years and principal of the Lincoln School since its first opening, nineteen years ago, was deeply hurt by the action of the committee and refused to go to the Jefferson.

Miss McClure took charge of the Lincoln this morning but the Jefferson without a principal. The Teachers' Committee does not meet until to-morrow evening. Until that time nothing can be done. In the meantime, Superintendent Long is in a quandary regarding the Jefferson School, which is of the most important assignment. Before the matter is settled it will probably be taken out of the hands of the committee and become a question for the full board to discuss.

WHAT A CHRISTIAN!

Rev. George W. Hortschlaw in the Arkansas Penitentiary for Forgery.

CHICAGO, September 6.—A special to the Times from Little Rock, Ark., says: "Rev. George W. Hortschlaw has been lodged in the State prison at this place having been convicted of forgery at the last term of the Cleburne County Circuit Court and sentenced to five years imprisonment. The prisoner has an interesting history. For some years past he has been operating in different parts of the country under various aliases. He is a native of Pennsylvania, and was a member of the Methodist ministry and was expelled from one of the Ohio conferences, having been proven guilty of conduct unbecoming a minister. He soon after appeared as a Christian or Campbellite preacher. It is said he was pastor of churches in Springfield and Peoria, Ill., and in other places. His real character soon revealed itself and led to disgrace and dismissal. Wherever he located, he married, deserting his wife and children. He settled and married in Cleburne County, this state, a year ago. He was considered a very eloquent preacher and crowds flocked to hear him. When arrested on the charge of forgery, he was conducting a revival in Franklin County and was immersing converts in a stream of water near the church. His arrest created intense excitement, friends threatening the officials with violence, but the case was taken away without trouble. Upon trial he pleaded guilty, possibly from the fact that an Illinois sheriff was in the court-room with a warrant for his arrest on the charge of bigamy. Two ministers of the Christian denomination accompanied the Sheriff to identify Hortschlaw. He is said to be under indictment in Ohio and Pennsylvania."

CHRISTENED FLAMBEAUX.

A Saturday Night Bath for the New Organization—Initial Parade.

The Flambeaux were baptized by the elements on Saturday evening in the most thorough manner. During the afternoon the rain threatened and the crowds gathered on the street corners down town to see the new organization in full-dress uniform. When the hour announced for the parade passed with no Flambeaux in sight, Col. Ware was promptly on hand at the officers of his staff, bugle corps, and the drum and piccolo corps. After a brief delay the six companies marched down from the Armory and the Colonel commanded the procession to use the face of rain and thunder.

The Sportsman's Park exhibition, however, had been extensively advertised and a large number of tickets had been sold. It was thought best not to break faith with the public if there was a possibility of weathering the coming storm. Shortly after 6 o'clock the word of command was given and the procession, with three companies in uniform, marched down Washington avenue to Fourth street and ended by a detail of Mounted Police wagons were in line drawn by a corps fully uniformed. Although it was getting dark and the sidewalks were lined with spectators ready for the coming storm, the parade was a success.

At Sportsman's Park Col. Torrey consulted with the directors of the association, who were on duty, and it was decided to postpone the exhibition until the evening of the 8th. Tickets sold for the 6th will be good on that occasion.

New Interest Accumulates.

Mary A. Chaffin entered suit to-day, in the Circuit Court, through Edmund Gresham, against Egan Durand to recover \$25,000 on a \$10,000 note payable one day after date, dated April 4, 1878. The interest amounts to nearly \$10,000.

The police department was paid to-day for the month of August.
